Dear Patients,

After more than forty years of practicing Obstetrics and Gynecology, it is both with gratitude and a touch of sadness that I share my decision to retire from medical practice effective **June 30, 2026**. Caring for you—through milestones, challenges, and countless meaningful moments—has been one of the greatest privileges of my life. Thank you for trusting me with something as personal and important as your health. That trust has shaped my career and enriched me more than I can express.

Stepping away is not easy. Medicine has been my calling for decades, and each of you has played a part in making this work deeply fulfilling. I am profoundly appreciative of the relationships we've built and the experiences we've shared.

To ensure a smooth transition, I am pleased to let you know that **Dr. David Fong** will be available to continue your care if you choose. We have been partners for many years. Dr. Fong trained at **Southwest Medical Center/Parkland in Dallas**, and he is an excellent physician and surgeon whose clinical judgment and compassion I trust completely. His office can be reached at **972-890-9250**.

For my patients who receive care through Medicare, Drs. Thai and Ashi have agreed to assume your ongoing care, although they do have restrictions on how many Medicare patients they see. I have worked with them for several years and have great confidence in their abilities. Their office can be reached at **972-981-3535**.

Your medical chart will remain available and can be transferred to Dr. Fong, Dr. Thai, Dr. Ashi, or any physician you designate. If you need assistance with this process, my office staff will be happy to help.

Thank you again for allowing me to be part of your lives. It has been an honor to serve you, and I will carry the memories of my years in practice with deep appreciation.

With warm regards,

Gary W. Duncan MD
